Story of Britain	Society and Government	Beliefs	Being a Historian
Queen Victoria was a British Queen. The people who lived at the same time were called Victorians. The Victorian times had lots of change and new things made (inventions)  Britain had a strong army in Victorian times and fought in many wars all over the world. The Crimean war was between Russia and Turkey – the British helped Turkey. Florence Nightingale worked hard to change nursing – the changes that she started shaped nursing in this country and across the world Many of the changes that Florence Nightingale brought about are still important in nursing/hospitals today.	There have been many Kings and Queens in Britain going back over many years. Queen Victoria was our last Queen’s (Queen Elizabeth II) great, great grandmother. There was a big difference between the lives of the rich and poor in Victorian times.	Most people in Victorian Britain would have been Christian and believed that they should try to please God.  Florence believed that she had been told to help people and become a nurse by God.	We find out about things in history by looking at items and pictures. Look at things that are the same and things that are different. Some things that happened in the past are still important today.

Vocabulary – Florence Nightingale
Tier One
Words they will use and should already know: Help Queen Hospital

God
