'We Are The Champions'

Well done to our fantastic reading challenge participants. We are proud to announce for the second year running we are the winners of the summer reading challenge, beating all other local schools.

Well done everyone and thank you for helping Silverstone CE Primary retain our winning title.

School Council

Our new School Council team have been democratically elected by their peers this week. We are pleased to announce that our new School Council representatives are:

Owls: Freddie and Emily

Kingfishers: Jesse and Jenna

Hawks: Mason and Martha

Eagles: Oliver C and Macey

Hummingbirds: Oscar and Charlotte

Ethos Committee

This week our Ethos Committee led Collective Worship. They were amazing, they chose the value they wished to talk about and then created their own thoughts and ideas and read these in front of the whole school. I was immensely proud listening to their reflections on our values and impressed with their determination and maturity with which they led the worship.

Well done to our Ethos committee members:

Penguins: Halia, Willow and Darcie

Owls: Max and Thandie

Kingfishers: Marcella and Dylan

Hawks: Thea, Orlaith and Amalia

Eagles: Bella and Imogen

Hummingbirds: Evie and Immy

Benedict's Law

How can parents help our School

Benedict's Law is the new statutory allergy safety standards introduced in September 2026. Thankfully there is very little we need change with our current policies and procedures. However, this new law does highlight the importance of a strong working relationship between parents and school.

The following point below have been taken from online guidance and summarise the key points:

How Parents Can Help

- **Co-create Healthcare Plans:** Work closely with the school to develop and annually update an **Individual Healthcare Plan (IHP)** and clinical allergy action plan for your child.
- **Provide Medication:** Supply in-date, prescribed **adrenaline auto-injectors (AAIs)** and any required emergency medication, ensuring they are replaced before they expire.
- **Share Vital Information:** Complete all mandatory **allergen declarations** promptly upon enrolment or during annual reviews,

notifying the school immediately of any new or changing allergies.

- **Support School Policies:** Read and respect the school's policy, adhering to rules regarding restricted or prohibited food items (such as nut bans).

**We do have children in school with severe nut allergies so please ensure children do not have any nut related items in packed lunches
- This includes Nutella**

- **Communicate Changes:** Keep the school updated on your child's emotional wellbeing, triggers, or any near-miss incidents outside of school that might affect their safety plan.

You can read more about the framework behind these requirements at the [Benedict Blythe Foundation](#) or review the [Allergy Safety Guidance](#).

We are proud to support Chester (Y3) and Hunter (Y4) with their fundraising efforts For Blood Cancer UK. The numbers are still going up, but so far they have helped raise over £1500. Blood Cancer UK have recently reached out to say thank you and shared that £1500 is enough to potentially fund a month's worth of research into the cancer. Which is just brilliant news!

The boy's creations can be found at the school office, with a QR code to scan and donate if you would like to support them.
